The security provider for the area

Experiencing car parking difficulties?

With the recent changes to the car parking amenities offered to the local shopper in Newbury, some people are deciding to risk parking their vehicles illegally in business premises car parks, causing grief for many local traders.

One solution that Maxim employs is by providing private landowners and leaseholders with a solution that is lawful, non-confrontational and a cost effective alternative to wheel clamping. Our system of parking control is based on issuing "civil notice parking tickets" to all unlawfully parked vehicles. We erect adequate signage that warns people that we operate parking restrictions at this location; our personnel will be responsible to police your car park or land at regular intervals and issue penalty tickets.

If you have land or own a car park of any size and are experiencing problems then give us a call on **01635**

524303 or email

Simon.inglut@maximsecurities.co.uk

Let Maxim drive your problems away (sorry about the pun!) Simon.
