

Manned Guarding

Manned Guarding: The power of presence

There when it matters. Company security takes many forms and in an uncertain world, businesses have more to protect than just their buildings. That's why Maxim Securities' Manned Guarding delivers on many levels.

Protecting your people. Your staff is probably your best asset. Maxim Security Officers are trained to accredited standards to provide the vital skills - including emergency service co-ordination and fire marshaling - that can make the difference between an incident and a disaster. Your company's staff and facilities are safe with Maxim.

Protecting your profile. Maxim Securities' front-of-house personnel may be a clients' first point of contact with your company and will bring a reassuring, authoritative presence to your gatehouse, reception or security office. They create a first impression that money can't buy.

Protecting your premises. While CCTV cameras will deter some thieves, they're not as effective as fully-qualified, professional security officers who will deter and help to convict criminals as a sworn statement from a licensed SIA officer is primary evidence in a court of law, while recorded material is only classed as secondary material.

Always there. The 24-hour, seven-day presence of professionally trained, uniformed and confident Security Officers says a lot about your company. The message to your customers is that you value people and premises; the message to opportunistic thieves and persistent criminals is 'stay away'.

Careful about carelessness. Malicious damage is one thing - but what about simple carelessness? A discarded cigarette end or a running tap could cause more damage than the most persistent criminal. Our officers are trained to detect an unusual or threatening situation and react with speed and efficiency.

Total Protection. Maxim protects your business from the inside out through asset, employee and visitor protection. We can offer a level of protection that suits your company.

You can't put a price on peace of mind, but you can afford the protection of Maxim Securities.

Maxim Securities use technology and industry standard accredited staff to create and supply a competitive range of detection and protection services. We make protecting your business our business.
