

Mobile Patrols

Mobile Patrols: On the road and on the case

Clients who want us to keep an eye on their property without a full-time presence or remote monitoring can opt for regular visits from one of our mobile teams. A highly-visible deterrent, Maxim Securities' patrols provide services beyond 'just' security...

There when you can't be. Concerned about your premises when you're not there? Maxim will visit your premises regularly and at staggered times and intervals to avoid patterns developing. Need to open the building at a set time? Ask us about our locking and unlocking service.

Locking down and opening up. Protection and security remains our priority. When you're covered by Maxim, our officer will visit, lock down and re-open the premises the next day. Why not share the service between different clients within the same estate making it a cost effective alternative to manned guarding?

Looking out for you. Your premises may be empty but they're still a potential target, so Maxim Security officers can visit empty or void premises to deter unwanted attention. Misfortune can strike just as readily as vandals so our supervisors are trained to respond to fire or burst water pipes.

Improving cover - reducing your premiums. Maxim's services extend beyond keeping people out - our mobile patrol supervisors can show visitors, workmen or potential buyers around empty premises on your behalf. Your property insurance may be reduced if you organise regular visits to the unoccupied premises, so our service has the potential to reduce your costs.

Visible deterrent, physical presence. Deterrence is better than confrontation and Maxim's security warning notices around your premises deter would-be intruders. The notices, alongside the presence of our clearly marked and readily identifiable company vehicles send out a powerful signal.

You can't put a price on peace of mind, but you can afford the protection of Maxim Securities.

Maxim Securities use technology and industry standard accredited staff to create and supply a competitive range of detection and protection services. We make protecting your business our business.
